Good morning

A concern of mine remains with the concept of Supporter and Representative people for the person in receipt of care. The wording in the document requires further clarification:

1. Do these appointed people replace standing EPOA or Guardian?
2. If so how and when will the EPOA or Guardian be made aware?
3. Will this concept if introduced be openly discussed with all people concerned? This is applicable to both current care recipients and future care recipients.
4. I am aware the appointment of a Supporter or a Representative can be with verbal or written consent of the care recipient. How will this be documented?

Regards

Janelle Fox
