

Chapter 1, part 2 No. 20 Lifetime cap

Please clarify why the lifetime cap is set at \$130,000. If a person transfers from NDIS to Aged Care, they may require aged care services for a considerable amount of time. What happens when the cap is reached?

Chapter 10, Part 2, means testing, table item 4

Is there any tiering for 'self-funded retiree as some may not have enough Super to last for the duration of their retirement. A flat contribution fee may be limiting for some.

Subdivision B- means testing classes

It is not clear why only 'blindness' is considered as an exemption. What about those who are for example para or quadriplegic?
