

**Essential elements of the AGPT Program Workforce Planning and Prioritisation grant opportunity GOXXXX**

This grant opportunity will provide advice on community workforce needs at the (GP catchment level) to the Department of Health (DoH) to inform AGPT distribution targets. It will also provide advice on AGPT training capacity and pathways enabling registrars to complete all their training within the PHN regional boundary.

The table following describes the essential elements for this grant opportunity. These elements are all essential to delivering robust, independent, evidence-based AGPT Workforce Planning and Prioritisation advice for consideration by the Department of Health.

Essential element	Rationale	Example inputs
<p><b>Analysis of current and future GP workforce need, to inform prioritisation</b></p>	<p>There are communities in Australia that currently experience or are predicted to experience GP service shortfalls. This may be due to changes to community size and demographics, ongoing or impending workforce shortages (for example impending retirements), or specific community needs where there is unmet demand. These locations are priorities for improved distribution. Training registrars in these locations aims to stabilise the workforce and meet community needs.</p> <p>This work element will analyse GP workforce and training data, and draw on community insights, to identify current and future GP workforce needs. This data will be used to prioritise GP catchments (within the PHN region) requiring improved distribution outcomes. This analysis will be used by the Department of Health to set annual AGPT Program distribution targets. The Department will provide a framework, developed in consultation with the sector, to support a consistent approach for prioritising GP catchments requiring improved distribution outcomes.</p> <p><u>Deliverable – Workforce Needs Report:</u> Final deliverable will prioritise GP catchments based on their distribution need, including the rationale. This deliverable will be provided in the last quarter of each calendar year, to inform distribution targets for AGPT selection processes in the next calendar year.</p>	<p>Data analysis:</p> <ul style="list-style-type: none"> <li>• HeaDS UPP (includes MBS data)</li> <li>• DPA benchmarking/status</li> <li>• Outreach demand</li> <li>• Public health Information development unit data</li> </ul> <p>Local insights:</p> <ul style="list-style-type: none"> <li>• Existing needs analysis</li> <li>• Existing hot spot analysis</li> <li>• Specific community health needs</li> <li>• Succession / retirement risks</li> </ul>
<p><b>AGPT training capacity assessment</b></p>	<p>With the transition to College-led training, the GP Colleges will be responsible for allocating AGPT training placements in-line with distribution objectives and registrar training needs. This will require a clear understanding of training capacity in GP catchments across the PHN region, including current training practices, practices with unfilled training capacity, and areas with training capacity gaps.</p> <p>This activity will identify training capacity in GP catchments across the PHN region, including accreditation status, identification of at-risk training sites and evidence of training capacity gaps.</p> <p><u>Deliverable – Training Capacity Report:</u></p>	<p>Audit and analysis of current training posts:</p> <ul style="list-style-type: none"> <li>• AGPT training data</li> <li>• MM classification, DPA status</li> <li>• Accreditation status</li> <li>• At risk sites</li> <li>• Advanced disciplines</li> <li>• Aboriginal Health training</li> </ul> <p>Audit and analysis of future posts:</p> <ul style="list-style-type: none"> <li>• Training data</li> <li>• National Health Service Directory data</li> <li>• Requirements to become active</li> </ul>

Essential element	Rationale	Example inputs
	<p>This deliverable will be provided in the first quarter of each calendar year, to inform AGPT placement decisions made over the remainder of the calendar year.</p>	<ul style="list-style-type: none"> <li>• Timeframes to become active</li> <li>• Evidence on ways to grow capacity</li> </ul>
<p><b>Analysis demonstrating that recommended allocations support all training to occur in a single region</b></p>	<p>The Australian Government is committed to supporting rurally inclined registrars to settle within the region where they undertake their training. A registrar is less likely to settle in a location if their time there is transitory. This activity will map the broader training capacity across the PHN region to:</p> <ol style="list-style-type: none"> <li>1. Support GP Colleges to make allocations that consider the extent to which registrars will have the opportunity to remain in the region</li> <li>2. In collaboration with relevant stakeholders, support Registrars with information about training pathways and sites to encourage career planning within the region.</li> </ol> <p>Therefore, a key goal of this activity is to recommend training allocations that enable registrars to complete all of their AGPT training within a single PHN region.</p> <p><u>Deliverable – Training Capacity Report:</u>  This deliverable will be provided in the first quarter of each calendar year, as part of the training capacity report, to inform AGPT placement decisions made over the remainder of the calendar year.</p>	<p>Analysis of proposed allocations with regional GP training capacity and pathways, based on the PHN regional boundary:</p> <ul style="list-style-type: none"> <li>• Existing pathways supported by Regional Training Hubs</li> <li>• Regional AGPT hospital training rotations</li> <li>• Extended skills posts</li> <li>• Advanced specialised training/advanced rural skills posts</li> </ul>
<p><b>Governance and stakeholder management</b></p>	<p>This is an enabling work element.</p> <p>There are a range of existing workforce organisations and local stakeholders undertaking work directly relevant to this grant opportunity. Grant recipients are expected to collaborate with these stakeholders to bring together existing work, existing data and draw on their collective insights.</p> <p>Engaging key local stakeholders and organisations in this work will deepen understandings of local context, need and gaps. This work element also aims to ensure that work makes efficient and effective use of stakeholder time by making use of existing processes, fora and other engagement opportunities.</p> <p><u>Final deliverable:</u></p>	<ul style="list-style-type: none"> <li>• Clearly defined key stakeholders</li> <li>• Governance model for collaboration with key stakeholders</li> <li>• Stakeholder management and engagement approach</li> <li>• Stakeholder Forum to test draft recommendations</li> </ul>

Essential element	Rationale	Example inputs
	A stakeholder forum must be held to test Workforce Needs recommendations with key stakeholders within each PHN region where you are performing this function, and areas of support or dissent clearly recorded in the Workforce Needs Report.	

### Roles and responsibilities for AGPT planning and prioritisation

<p><b>Planning &amp; Prioritisation Organisations</b></p> <ul style="list-style-type: none"> <li>Undertake stakeholder consultation to formulate advice, including hosting a forum to test proposed recommendations with key stakeholders within each PHN region where you are performing this function.</li> <li>Prepare comprehensive, evidence-based advice comprising: <ul style="list-style-type: none"> <li>Priority order of GP catchments for registrar training to meet future community needs, based on workforce data, training data and local insights</li> <li>Available training capacity (including accreditation status), identification of at-risk training sites and evidence of any training capacity gaps</li> <li>Assessment of training pathways that enable registrars to complete all training within the PHN region.</li> </ul> </li> <li>Build effective relationships to engage with stakeholders across the region.</li> <li>Support AGPT forward planning by regularly engaging with the GP Colleges to share progress and early findings.</li> </ul>	<p><b>Department of Health (DOH)</b></p> <ul style="list-style-type: none"> <li>In consultation with the sector, set framework and KPIs for key information requirements expected from organisations undertaking the grant activity.</li> <li>Set distribution targets for GP Colleges under College-led training grant agreements.</li> <li>Provide planning and prioritisation reports to GP Colleges.</li> <li>Review applications for new or changed access to the Health Demand and Supply Utilisation Patterns Planning (HeaDS UPP) Tool.</li> <li>If needed, update existing funding agreements to support information sharing arrangements required for this activity.</li> </ul>	<p><b>Relevant Commonwealth-funded, jurisdictional and other stakeholders in PHN region</b></p> <ul style="list-style-type: none"> <li>Work collaboratively with organisations selected to deliver planning and prioritisation activities and share information.</li> <li>Work with GP Colleges to take action to respond to planning and prioritisation advice.</li> <li>If needed, negotiate formal information sharing arrangements with Planning &amp; Prioritisation Organisations.</li> </ul> <p><b>GP Colleges</b></p> <ul style="list-style-type: none"> <li>Work collaboratively with organisations selected to deliver planning and prioritisation activities and share information.</li> <li>Make final AGPT selection and placement decisions.</li> <li>Achieve AGPT distribution targets set by DoH to meet community need.</li> <li>Take action to respond to planning and prioritisation advice.</li> <li>Deliver outcomes in the AGPT Outcomes Framework.</li> </ul>
--	---	--

<ul style="list-style-type: none"><li>• You or one consortium member must be able to obtain access to the Health Demand and Supply Utilisation Patterns Planning (HeaDS UPP) Tool, including signing a confidentiality deed poll, accepting terms and conditions for access and continuing to meet requirements for HeaDS UPP access.</li><li>• Where needed and where entities are agreeable, seek information sharing arrangements with relevant Commonwealth-funded, jurisdictional or other stakeholders.</li><li>• Subject to privacy and confidentiality, share findings with entities undertaking relevant Commonwealth-funded activities.</li></ul>		<ul style="list-style-type: none"><li>• If needed, negotiate formal information sharing arrangements with Planning &amp; Prioritisation Organisations.</li></ul>
