

Review of Pharmacy Remuneration and Regulation
#179_BHLF-58KW-N526-T

To whom it concerns.

I was travelling from Europe on the 22 nd and 23 of July and had just been informed of this review when I had to catch a flight. I hope you will still consider my brief submission.

My submission refers only to the continued retention and sale of homoeopathic remedies in pharmacies.

Across Europe Homoeopathic remedies are sold in reputable pharmacies, many pharmacies are solely or in the main advertised as Homoeopath pharmacies. It would appear that only in Australia is there a continued war on Homoeopathy.

It is surely a right to continue to be served with remedies such as these in pharmacies.

Yours sincerely,
