

To: Review of Pharmacy Remuneration and Regulation.

Submission to the interim report from:
Northern Territory Government
Department of Health
Medicines and Poisons Control

In response to the interim report – I note the following error for correction:

P117, Table 10: State/Territory poisons regulations – storage requirements

Northern Territory	Retail sale from pharmacy, or by holder of Poisons Retailer Licence from premises more than 40 25 kilometres by road the shortest practical route of a from the nearest pharmacy.
--------------------	--

Sections of the *Medicines Poisons and Therapeutic Goods Act* pertaining to this correction

Section 123 Retailer licence

A retailer licence, for a place, is an authority that authorises the licensee to:

- (a) supply the Schedule 2 and 7 substances stated in it from the place in the course of carrying out business activities for the retail sale of the substances; and
- (b) possess the substances for a purpose mentioned in Paragraph (a).

Note for section 123

However, under section 145, the licensee is prohibited from supplying a Schedule 2 substance from the licensed place if it is located within 25 km, by the shortest practical route, of a pharmacy.

Section 145 Conditions – retailer licence

A retailer licence is subject to the condition that the licensee must not supply a Schedule 2 substance from the licensed place if it is located within 25 km, by the shortest practical route, of a pharmacy.
