5 Do you consent to your submission being published publicly through the Review website?

Yes, but keep my name confidential.

If 'No', please state which part/s of the submission you wish to remain in confidence and provide a brief justification for this::

My son has autism with ADHD and anxiety. We have seen five psychiatrists, one being Dr ██████████, many psychologists and Dr ██████████. We have done it your way with a cocktail of drugs, no positive results I might add. In the last six months we have tried homeopathic remedies, finally a decrease in the levels of anxiety. My son deserves the freedom to choose another way.

How about you eradicate some of the other poison cocktails sold in pharmacies??? Start with the poisons in cosmetics.
