

**T10014**

I really can't believe this bill has our best interests at heart. Allowing just one hour per week for maintenance is quite simply ludicrous. Is it the intention of the department to force us into aged care facilities, because that will almost certainly be the outcome. Only a government department could in all seriousness say this is an improvement when it is just the opposite. If this debacle goes ahead I for one will manage as best as I can for as long as I can, but will choose an alternative way our rather that go into care prematurely.
